

Alex Johnson

Python Developer | Flask · REST APIs · Databases

+1 (555) 234-5678

alex.johnson@email.com

github.com/alexj

Austin, TX

Recent Computer Science graduate (CGPA: 3.8/4.0) with hands-on experience in Flask, RESTful API design, and relational databases. Passionate about building efficient back-end systems and clean, documented APIs.

Education

B.Sc. in Computer Science

2021 – 2025

University of Texas at Austin · Austin, TX

CGPA: 3.8/4.0 · Dean's List (4 semesters) · Relevant coursework: Databases, Web APIs, Software Engineering

Experience

Back-end Developer Intern

Jun 2024 – Dec 2024

TechFlow Solutions · Remote

- Developed RESTful APIs using Flask and SQLAlchemy, reducing response time by 25% through query optimization.
- Integrated PostgreSQL database with token-based authentication (JWT) for secure user management.
- Wrote unit tests (pytest) and API documentation using Swagger/OpenAPI.

Featured Projects

TaskFlow Manager

2024

Flask REST API with JWT auth, SQLite/PostgreSQL, and Celery for background tasks. Deployed on Render. [GitHub](#)

Library Management System

2023

RESTful API (Flask) with MongoDB (NoSQL) and Flask-Pymongo. Implemented full CRUD, pagination, and role-based access.

E-commerce Analytics Dashboard

2024

Flask + SQLAlchemy + Plotly; real-time metrics from PostgreSQL; REST endpoints for front-end consumption.

 Technical Skills

- Python
- Flask
- REST API
- SQLAlchemy
- PostgreSQL
- MongoDB
- Git/GitHub
- Docker (basic)
- Pytest
- JWT/OAuth
- Swagger
