Austin, TX

100% match to job requirement: Python Developer with **Flask, REST APIs, and databases** (PostgreSQL, MongoDB). Holds a **Computer Science degree** with **CGPA 3.8/4.0** (>3.5). Passionate about building scalable backend systems and well-documented RESTful services.

Education

Bachelor of Science in Computer Science

2021 – 2025

University of Texas at Austin · Austin, TX

CGPA: 3.8/4.0 (above 3.5 requirement) · Dean's List (all semesters)
Relevant coursework: Database Management, Web API Development, Software Engineering, Distributed Systems.

Experience (Flask · REST · Databases)

Python Developer Intern (Backend)

Jun 2024 – Present

TechStack Solutions · Remote

- Designed and deployed **RESTful APIs** using **Flask** and Flask-RESTx, handling 15k+ daily requests.
- Integrated **PostgreSQL** and **MongoDB** databases using SQLAlchemy and PyMongo; optimized query performance by 30%.

- Implemented token-based authentication (JWT) and rate limiting for API security.
- Documented all endpoints with Swagger/OpenAPI and wrote unit tests with pytest.

Key Projects (Flask · REST · Databases)

TaskFlow Manager API

2024

Full-featured **Flask REST API** with JWT authentication, task scheduling, and role-based access. Backend uses **PostgreSQL** (SQLAlchemy ORM) and **Redis** for caching. Deployed on Render with CI/CD pipeline.

E-commerce Analytics Dashboard

2023

Built a **Flask** backend that serves real-time sales data via **REST endpoints**. Connected to **MongoDB** for product catalog and **PostgreSQL** for orders. Implemented aggregation pipelines and data visualization with Plotly.

Library Management System

2022

RESTful API developed with **Flask** and Flask-SQLAlchemy. Uses **PostgreSQL** to manage books, users, and borrowing history. Includes full CRUD operations, search with filters, and pagination.

Technical Skills

Python	Flask	REST API Development	PostgreSQL	MongoDB	SQLAlchemy	JWT / OAuth	Git & GitHub
Docker	Pytest	Swagger/OpenAPI	Redis				

✓ **Direct match to job description:** Experienced in **Flask, REST APIs, and databases (SQL & NoSQL)**. Computer Science degree with **CGPA 3.8 (>3.5)**. Ready to contribute from day one.
